

## **Neurons.Al London Meetup**

## **Artificial Intelligence in the Enterprise**

Welcome

## Informed.Al a group of community websites

Informed.AI represents a group of websites dedicated to help, support and promote the activities of the AI community, both companies and individuals.

We also encourage knowledge sharing and education to facilitate the wider understanding of Artificial Intelligence and enable those wanting to learn more to find useful information to support their educational needs.

Founded in 2015, our focus has been on establishing our online offerings, however we are now adding more social and offline meetups and networking opportunities to bring different groups of people interested in AI together.

Neurons.Al

Events.Al

Showcase.Al

Vocation.Al

Awards.Al

The aim of this directory is to become an extensive list of information resources, and hence a great starting point for people wanting to learn more about the field.

From novices who are just wanted to learn more about the field, to hobbyists looking to use the various tools and software available,

to students, teachers and academics who are studying and researching the field,

and finally to professional practitioners and developers who are building systems and applications of AI or ML

The following types of media exposure are available on homeAI.info

- Directory Listings
- Monthly Spotlight for Individuals or Company
- News Stories and Press Releases
- Category Curator
- Article Contributors
- Sponsored Links / Adverts

#### The Global Annual Achievement Awards for Artificial Intelligence

the 2nd Annual Awards - Open for Voting

Welcome the 2nd Annual Achievement Awards for Artificial Intelligence. This is a public vote across twenty-one nomination categories. Help us celebrate the amazing achievements happening across the industry by voting for those companies and people that are truly making a difference for AI.

Please note each person can only register a single nomination per category. If you wish you can vote for a single category or vote on all twenty categories. Use the form below, fill in your details and then optionally the details for each of the categories you wish to vote on.

The winners will receive an awards trophy. Take a look at the 1st annual award winners

## 17 Awards Categories across a number of Industry sectors

First dedicated Careers Portal for AI, ML and Data Science

#### Info

#### Home + Info

#### About this Site

This is one of a network of sites dedicated to support the AI community. For more information see <u>informed AI</u> If you are a company or agency that has one or more job openings related to Artificial Intelligence and Machine Learning you are free to post them onto this site. We are a new site, but have a strong network and community of people who are interested in this field.

#### New to Artificial Intelligence, Machine Learning or Data Science?

If you are new to the field of Data Science, Machine Learning and Artificial Intelligence, there are a number of good resources available to help you find out more. We recommend the following:

- <u>homeALinfo</u> the home of Artificial Intelligence information
- Events AI find meet ups and conferences about AI and machine learning

# We Need Your Help

# What we Need

1)Senior Leaders, CTOs, CIOs and most importantly, SMEs of AI and Machine Learning, to form a senior advisory board supporting Andy and the management team in terms of the direction and focus of the initiatives that we should drive forward. We will meet a few times a year to set the agenda and focus on the group.

2)**Content Providers, Journalists and Editors** to help us increase our own content. Help give us our own voice and opinion. We feel this is really important to help build up our catalog of contributors.

3)**Sales & Marketing**. To help us grow, we need to reach out to more companies and individuals to make them aware of the ways we can support them.

4)**Admin**. As we grow we need to keep ontop of more and more administrations and paperwork.

5)**Operations & Logistics**. While our initial focus has been on the on-line world, we are moving more into the off-line, real world in terms of organising meetups, and conferences. This requires all sorts of help both on the day of the event but also beforehand too.

# What we Need

6)**Regional and Country Leads**. We have visitors from all over the world, and ideally we would like a country lead for each to ensure we are giving focus to each countries specific requirements. Plus to support our role out of real world events.

7)**Business Development**. Help exploring new growth areas. We have a number of new websites we need help to grow, including our Jobs and Careers Portal (Vocation.AI) and our new Professional Networking site Neurons.AI. We also have a few ideas which we would like to roll out in 2017 too.

8)**Technical support.** We run and administer an increasing number of websites, we would welcome support with these to allow us to add more functionality quicker to our sites, while ensuring we have a stable platform for our users and visitors.

9)**CEO, CTO and CMO**. While Andy Pardoe has been performing all of these roles since inception, we would welcome the dedication and leadership that separating these roles would bring, together with benefits of strengthening the management team.

Currently none of these roles come with any renumeration, they are very much part-time voluntary roles. However, we are seeking funding sources that would change that situation in
